

Weekly report

1 Done.

1.1 Courseware

- Add cases.

1.2 Vis Presentation

I prepared the presentation until Thursday. On Friday, they made some suggestion for my presentation.

- The length of the speech is not enough, I can add some content, such as the introduction of differential privacy model.
- The current order is somewhat confusing. I can show the two main contributions first, which are the system and the pipeline. Then, I can introduce the system in accordance with the order of the pipeline. Finally, the pipeline can be explained as summary.
- I should add some video to show the real system.
- Some design could be improved.
- Some pronunciations are wrong. ()
- The font size should be more than 24.
